The 'why' behind the Freedom Experience

Earth Is in a transformative phase

Many people are looking for the so-called truth.
In other words: How does the world work?
Some people are trying to 'escape the matrix'
Or to escape from 'they and their plans'
That's useful for awhile.

However:

The only solution is: Free your inner being from the matrix.

The Freedom Experience is an invitation to understand that we, as humanity created this matrix. Every single one of us has the power to change reality by being a co-creator on Earth, not a follower.
